Landscape Architects

MINNEAPOLIS AND ST. PAUL

Since 1874

THE LAWN

The production of grass seed mixtures has through intense study, become highly specialized. Rose Hill Nursery offers lawn seed which is composed of a mixture, in correct proportions, of the grasses that have proven most satisfactory for this section. Only the highest quality seed of the various kinds is used; for the difference in cost between the very best and cheap seed is so little and the difference in results from their use is so great.

Use 1 pound to 200 square feet of new lawn area to be seeded.

POSTAGE—Please include payment for postage if seed is desired by parcel post. See parcel post rates on page 32.

ROSE HILL LAWN SEED

The combination of seeds used in this mixture is the result of our many years of creating beautiful home grounds. Though the highest grade Kentucky Blue Grass forms the basis of this mixture, other grasses are used to hasten the lawn and act as a nurse crop to the blue grass seed, which is slow to germinate. No better lawn seed can be bought at any price and we highly recommend it to you as a mixture which will produce a beautiful, thrifty lawn.

ROSE HILL SHADY PLACE SEED

This mixture has been especially developed to produce a lawn in fairly dense shade. Under evergreens and low branched trees, where no sun ever strikes, no grass can possibly survive, but where the shade is not too dense this mixture will prove satisfactory.

ROSE HILL WHITE CLOVER

White clover foliage gives an appearance of richness to the lawn and the flowers find favor with many persons. May be seeded into established lawns to encourage a more luxuriant-appearing growth.

ROSE HILL FERTILIZER

All vegetation is benefited by the intelligent application of a fertilizer because it supplies the soil with available plant food. Such application is followed by profit in the form of finer lawns, trees, shrubs, flowers and fruit.

Rose Hill Fertilizer is scientifically manufactured to be used in gardens, for feeding trees and on the lawn in the North Central states. It is odorless and pleasant to handle. Persons who are wise in fertilizer buying, judge the value of the fertilizer by the chemical analysis, which law requires be printed on every package of fertilizer. Rose Hill Fertilizer ranks among the very best in plant food value. The guaranteed analysis is Nitrogen 6%. Available Phosphoric Acid 10% and water soluble Potash 4%. Lawns especially require Nitrogen for luxurious growth. Being highly concentrated a small quantity of Rose Hill Fertilizer covers a large area.

Use 1 pound to each 35 square feet or 100 pounds to each 3500 square feet. See diagram on page 10 for proper amounts and method of use for feeding trees. Complete directions for applying accompany each bag of fertilizer.

RICH PLANTING SOIL

Excellent planting soil delivered in the Twin Cities or suburbs at **\$2.50** per single yard or **\$2.00** per yard when two yards or more are purchased. Per sack, one bushel, **\$0.50**.

Lawn dressing soil **\$2.75** per single yard, **\$2.50** per yard for two yards or more.

PULVERIZED PEAT MOSS

A splendid material to spade into soils to make them in better condition for plant growth. Peat causes a clay soil to become more friable and holds moisture in sandy soils. Used as a mulch about plants or as a top dressing for lawns it helps greatly to conserve moisture. Odorless and pleasant to handle. Per sack **90c**; 2 sacks.....**\$1.50**

Gardening--A Glorious Hobby

"It seems agreed that a hobby not overridden is a wise possession for every one, and it has grown on me, during these gardening years, that no hobby is so safe and sane for a woman as a garden. It centers about the home; the children and other members of the family may have a part in it; friends may enjoy it, and the influence of its beauty and sweetness reaches far and wide."—Louise Beebe Wilder, in "My Garden."

You'll find pleasure and health in your garden. The pleasure of planning, the fun of actual planting, the interest of caring for and watching each step in the development of your trees, shrubs and flowers. These bring a thrill not to be found in any other activity. And the hours spent in the open air and sunshine will each contribute its full share to your health and happiness.

If you desire suggestions about planning your garden, our Landscape Department will be very glad to help. Please see page 3 which tells of our landscape service.

Visit Our Nursery--A Storehouse of Fascinating Plant Materials

Not one, but hundreds of different kinds of plants are grown at the Rose Hill Nursery. It is a veritable storehouse of fascinating plant materials which have been gathered from all parts of the world. Here one finds the best of our own native trees, shrubs and flowers—Roses and Lilacs from China and Japan, and evergreens made hardy through centuries of growth on mountain sides. Almost anything one can desire in hardy plants that are suitable for growing in our section of the country, can be found in our nursery.

You are most welcome to visit the nursery during the summer when the plants are in bloom and browse around as long as you like whether you buy or not.

ENTRANCE TO OFFICE AND SALES GROUNDS

HOW TO REACH THE ROSE HILL NURSERY

From MINNEAPOLIS, by auto, drive out East Hennepin Ave. directly to the Nursery, which is located two blocks east of the city limits. New paving is now completed on East Hennepin Ave.

From Minneapolis, by streetcar, take Como-Harriet car going towards St. Paul, get off at Eustis Street and walk three blocks north.

From ST. PAUL, by auto, drive north on Snelling Ave. past Fair Grounds one-quarter mile to Larpenteur Ave. (also known as County Road A), turn west one and one-half miles to our office.

From St. Paul, by streetcar, take Como-Harriet streetcar going west, get off at Eustis Street and walk three blocks north.

THE FRONT YARD SHOULD BE OPEN AND INVITING

In America it is the custom to leave the front yard open to the public view. Good judgment dictates that this portion of the grounds be so attractive as to create a pleasing impression on the passerby.

For the utmost in attractiveness in the front yard, plan to have an open stretch of well kept lawn framed on either side, along the property lines, by plantings of evergreens and shrubs in pleasing arrangement. The planting along the house foundation in front should be tastefully arranged to blend the house with the grounds. Here, all too often, a cluttered planting of miscellaneous matter is used which is devoid of all design and soon becomes a detriment to the good appearance of the house rather than an addition to it. Corner plantings, to frame the property are in good taste and often times a few specimen plants at the corners are in good design. Shade trees should, of course, be provided both in the yard and in the boulevard and a specimen evergreen or a group of evergreens may often be added with pleasing results.

A New Vogue is Sweeping the Country

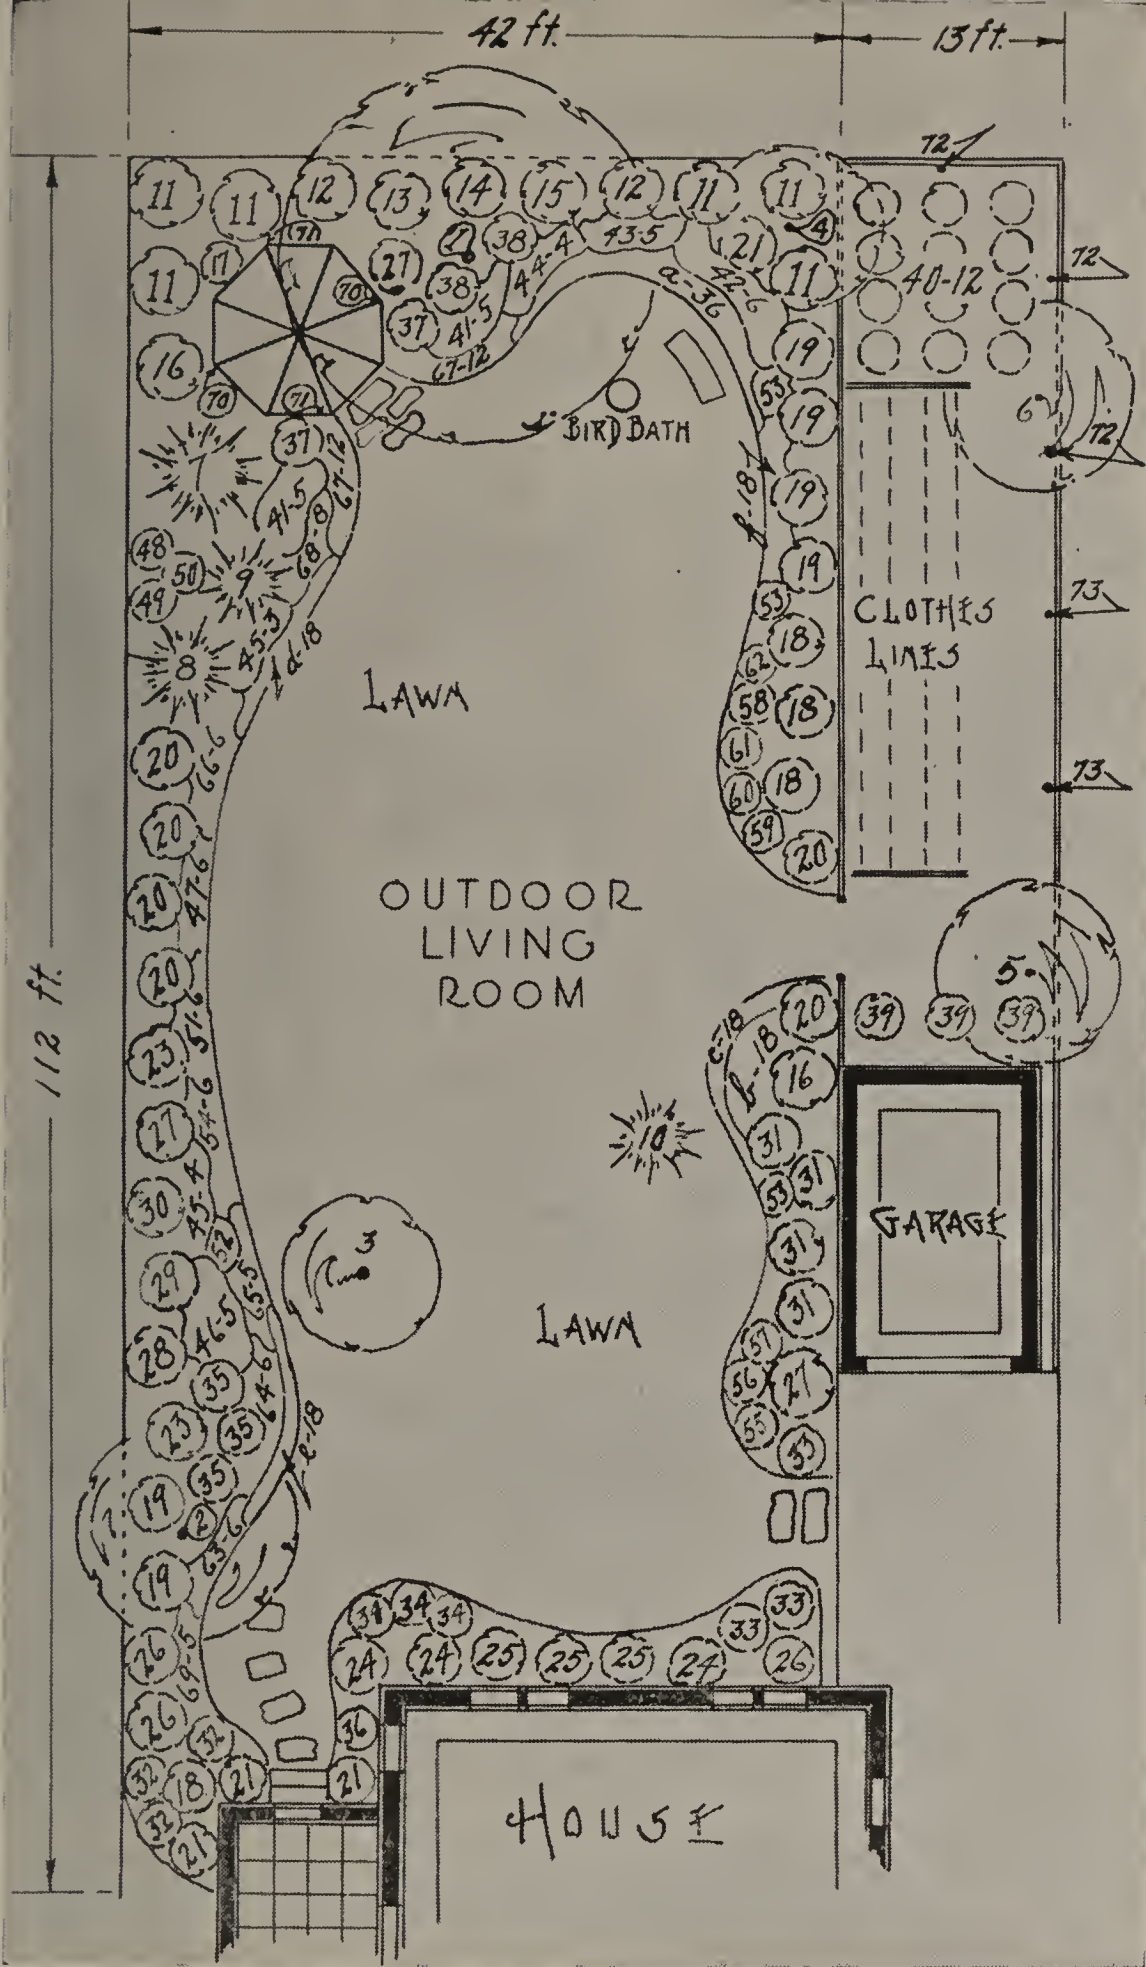

Everywhere we look we see fresh evidence of the great desire for beautiful home surroundings that is sweeping the country. The editors of our great magazines and newspapers, whose fingers are ever on the public pulse are fully conscious of this trend and are devoting ever increasing space to the subject of beautifying the home grounds.

As a result, the eyes of the American people are being directed, as never before, to their home surroundings. Garden Clubs are springing up everywhere and all over America one finds a new interest in the fascinating pastime of beautifying the home. And it is good that this is the case, for America will become the garden spot of the world when every citizen comes to realize that—

It's not a home until it's planted.

**Rose Hill Nursery Planning Service To Customers
Living Outside the Twin Cities**

To those at a distance from the Twin Cities, an easy method of using the Rose Hill Planning service is provided. Upon request and without obligation a chart will be mailed which illustrates and explains the information required by our architects to design a plan to fit the grounds. Upon receipt of this information, the customer is advised the cost to prepare a suitable plan. The amount paid for the plan is later applied to the purchase of nursery stock by allowing the customer a 10 per cent discount from catalog prices on all stock purchased until the amount of these discounts equals the amount paid for the Plan. Thus in reality a free plan service is provided.

Special Consultation Service for Out-of-Town Large Residence Grounds, Etc., requiring travel expense and considerable time.

Consultation and planning service by our landscape architects may be arranged for larger residence grounds, schools, public buildings and parks anywhere. Ask for complete details regarding this service.

THE BACK YARD PASSES—NOW IT BECOMES AN OUTDOOR LIVING ROOM

The "back yard" is the ugly duckling of an age gone by.

Today it shines in resplendent new dress. The finest and most attractive of plants are gathered there, arranged in living walls to shut out the discordant world and create the loveliest of home pictures.

DECORATIVE SHRUBS

Fresh, Vigorous Plants—Sure to Grow

Flowering shrubs create natural beauty and loveliness and are indispensable to the landscape gardener.

Please note what an important part shrubs play in the landscape design to the left.

Against the house foundation the shrubs blend the house with the grounds and create a lovely softening effect. On both sides of the property and across the rear shrubs contribute a delightful frame to the picture. They also give privacy and a beautiful background for annual and perennial flowers besides their own beauty of flowers, berries and varying foliage colors.

Our large list of hardy varieties contains all the worth while shrubs adapted to the rigorous climate of this section of the country. By thoughtful selection continuous interest may be obtained from early spring until late fall through successive blooming periods.

POSTAGE

If shipment is wanted by parcel post please add for postage and packing, figuring average weights for shrubs as follows: 12 to 18 in. shrub, 1 lb.; 18 to 24 in. shrub, 2 lbs.; 2 to 3 ft. shrub, 3 lbs.; 3 to 4 ft. shrub, 4 lbs. See parcel post rates on page 32.

Heights of Shrubs following the name denote size at which the plants present their maximum beauty.

ALMOND, Flowering. (Amygdalus.) 4 to 5 ft. Small, pink or white double flowers along stems in May. Needs winter protection. Please specify color wanted.

2 to 3 ft.....\$0.60 ea. 3 to 4 ft.....\$0.75 ea.

ALMOND, Siberian. (Amygdalus Siberica.) 2 to 3 ft. This new variety of Almond is of dwarf growth, perfectly hardy without winter protection. The bush is completely covered with double, bright rose pink fragrant flowers early in the spring. The leaves turn to gold and red in the fall creating a beautiful appearance at that time also. Very desirable.

12 to 18 in.....\$0.35 each 18 to 24 in.....\$0.60 each

ARALIA, Devil's Walking Stick. (Aralia Spinosa.) 8 to 10 ft. Attractive, tall-growing shrub with very prickly stems and large, deeply cut compound leaves 3 to 5 feet long. Tropical in appearance. Plant in protected locations. See cut page 5.

2 to 3 ft.....\$0.75 ea. 3 to 4 ft.....\$1.00 ea.

ARROWWOOD. (Viburnum Dentatum.) 7 to 8 ft. Flowers white, flat-topped, followed by blue berries in the fall. A large shrub with bright green foliage coloring prettily in the fall.

18 to 24 in.....\$0.50 each 2 to 3 ft.....\$0.60 each

Barberry, Japanese

BARBERRY, Japanese. (Berberis Thunbergii.) 2½ to 3 ft. A splendid dwarf shrub, conspicuous for its good foliage. The foliage is brilliantly colored in the fall and the attractive red berries cling well into the winter. A thrifty grower most anywhere. Good in front of taller-growing shrubs and as a hedge.

12 to 18 in.....\$0.30 ea. 2 to 3 ft.....\$0.60 ea.

18 to 24 in......40 ea.

(For Barberry hedge plants see page 14)

BARBERRY, Red-Leaved. 2½ to 3 ft. A recent introduction. Similar to the Japanese Barberry excepting in foliage which is a deep purplish red. A valuable shrub for color in the border.

12 to 18 in.....\$0.50 ea. 2 to 3 ft.....\$1.00 ea.

18 to 24 in......75 ea.

BUCKTHORN, Common. (Rhamnus Catharticus.) 6 to 7 ft. A very hardy shrub with dark green foliage. Flowers inconspicuous. Stands shearing well.

2 to 3 ft.....\$0.35 ea. 3 to 4 ft.....\$0.50 ea.

(For Buckthorn hedge plants see page 14)

BUCKTHORN, Glossy Leaved. (Rhamnus Frangula.) 6 to 7 ft. A handsome, tall shrub with shining dark green foliage. The attractive berries change from red to black. Distinctive in appearance.

2 to 3 ft.....\$0.50 ea. 3 to 4 ft.....\$0.75 ea.

BUTTERFLY BUSH. (Buddleia.) 4 to 5 ft. Also known as Summer Lilac, as it resembles the common lilac in general color and effect. It dies back with the frost in the fall and the dead wood should be cut back nearly to the ground; but the roots are usually uninjured and it quickly grows to a height of 3 to 5 feet or more, in the spring. It blooms continually from July to frost, bearing long, slender, arching spikes of light blue, lilac-like flowers, which are fragrant.

2 to 3 ft.....\$0.50 ea.

CARAGANA or SIBERIAN PEA TREE.

(Caragana Arborescens.) 8 to 10 ft. One of our hardiest shrubs. Covered in May with bright yellow flowers, followed by long, slender pods. Will thrive in exposed trying locations.

18 to 24 in.....\$0.25 ea.
2 to 3 ft......40 ea.
3 to 4 ft......60 ea.
4 to 5 ft..... 1.00 ea.

CHERRY, Choke. (Prunus Virginiana.)

10 to 12 ft. A large, handsome bush, or small tree, bearing strong scented white flowers in May. Dark red, pea sized fruit appears in July and August.

18 to 24 in.....\$0.35 ea.
2 to 3 ft......50 ea.
3 to 4 ft......75 ea.

Elder, Cut-leaved

ROSE HILL NURSERY

CHERRY, European Bird or May Day Tree. (Prunus Padus.) 8 to 10 ft. One of earliest plants to leaf out in spring. The drooping racemes of white, very fragrant flowers literally cover the tree in early May, followed later by shining black berries which are attractive to birds.
 2 to 3 ft.....\$0.50 ea. 3 to 4 ft.....\$0.75 ea.

CHERRY, Pin. (Prunus Pennsylvanica.) 8 to 9 ft. The slender, red-barked branches are covered with small white flowers which appear at the same time as the light green leaves. The light cherry-red fruit is about the size of a pea. This is an interesting ornamental tree.
 6 to 8 ft.....\$2.00 ea. 2 in. diam.....\$4.00 ea.
 8 to 10 ft..... 2.50 ea.

CHERRY, Purple Leaf Sand or Cistena. (Prunus Pumila Purpurea.) 4 to 5 ft. A fine medium sized shrub for color effect having purple foliage throughout growing season. A most valuable and attractive shrub.
 2 to 3 ft.....\$0.75 ea. 3 to 4 ft.....\$1.00 ea.

CHERRY, Sand. (Prunus Pumila.) 4 to 5 ft. Its small, numerous white blossoms in May and purplish black fruit later make it an attractive addition to the shrubbery border.
 18 to 24 in.....\$0.35 ea. 3 to 4 ft.....\$0.75 ea.
 2 to 3 ft..... .50 ea.

COTONEASTER or QUINCEBERRY. (Cotoneaster Acutifolia.) 5 to 6 ft. An attractive, dense-growing shrub with ornamental, shiny, dark green leaves. Fall coloration lovely. Very good in the border or for a hedge. This attractive shrub can be depended upon to grow and thrive where many other shrubs fail.
 12 to 18 in.....\$0.25 ea. 2 to 3 ft.....\$0.60 ea.
 18 to 24 in..... .40 ea. 3 to 4 ft..... .85 ea.
 (For Cotoneaster hedge plants see page 14)

CRANBERRY, High Bush. (Viburnum Opulus.) 6 to 7 ft. Flowers white in flat clusters. Very decorative in fruit, which colors early, and holds its bright scarlet color until very late in the fall. The leaves turn to bright autumn colors in September or early October. Recommended where a fairly large attractive shrub is needed.
 18 to 24 in.....\$0.35 ea. 3 to 4 ft.....\$0.75 ea.
 2 to 3 ft..... .50 ea. 4 to 5 ft..... 1.00 ea.

CURRENT, Alpine or Mountain. (Ribes Alpinum.) 3 to 4 ft. A desirable, rather low-growing shrub of dense growth. Having foliage close to the ground it is a desirable plant for shrubbery borders. A dependable shrub for either shady or sunny locations.
 12 to 18 in.....\$0.40 ea. 2 to 3 ft.....\$0.80 ea.
 18 to 24 in..... .60 ea.
 (For Alpine Currant hedging see page 14)

Hydrangea, Hills of Snow, with white flowers. Aralia in background

DOGWOOD, Golden Barked. (Cornus Aurea.) 5 to 6 ft. Attractive in winter with its golden yellow bark, especially in masses with red-barked varieties. Flowers white.
 2 to 3 ft.....\$0.50 ea. 3 to 4 ft.....\$0.75 ea.

DOGWOOD, Gray Bark. (Cornus Paniculata.) 6 to 7 ft. White flowers in May or June. Attractive white fruit in fall. Good foliage, bushy, compact form. A fine shrub.
 18 to 24 in.....\$0.40 ea. 2 to 3 ft.....\$0.60 ea.

DOGWOOD, Red Twiggged Siberian. (Cornus Siberica.) 5 to 6 ft. A superior variety of the Red Twiggged Dogwoods. Its symmetrical growth and very bright red branches make it very desirable. White flowers.
 2 to 3 ft.....\$0.50 ea. 3 to 4 ft.....\$0.75 ea.

DOGWOOD, Siberian Variegated Leaved. (Cornus Siberica Variegata.) 4 to 5 ft. Its green leaves with white stripes make this plant very attractive. Its white flowers and red bark are also interesting.
 18 to 24 in.....\$0.50 ea. 3 to 4 ft.....\$1.00 ea.
 2 to 3 ft..... .75 ea.

ELDER, Black-Berried. (Sambucus Canadensis.) 6 to 7 ft. A large rapid-growing shrub with flat clusters of white blossoms followed by large clusters of black berries. Stands shade. Fruit used for wine or in pies.
 2 to 3 ft.....\$0.50 ea. 4 to 5 ft.....\$1.00 ea.
 3 to 4 ft..... .75 ea.

ELDER, Cut-Leaved. (Sambucus Canadensis Laciniata.) 6 to 7 ft. The beautiful fern-like foliage and strong growth in either sunny or partially shaded locations make this plant very desirable. White flowers.
 2 to 3 ft.....\$0.50 ea. 3 to 4 ft.....\$0.75 ea.

ELDER, Golden. (Sambucus Aurea.) 6 to 7 ft. White flowers. The golden colored leaves contrast beautifully with the greens of other shrubs. Leaves color best when planted in full sun.
 2 to 3 ft.....\$0.50 ea.
 3 to 4 ft..... .75 ea.

ELDER, Red-Berried. (Sambucus Racemosa.) 6 to 7 ft. Fragrant white blossoms in great profusion followed by bunches of red berries attractive to the birds. Of vigorous growth; stands partial shade.
 2 to 3 ft.....\$0.50 ea.
 3 to 4 ft..... .75 ea.
 4 to 5 ft..... 1.00 ea.

Lilac, French, Hybrid Varieties

THESE splendid Lilacs are far superior to the common varieties, blooming much more consistently, with a greater profusion of larger flowers. The plants seldom send out sprouts around the plants as the old purple and white kinds do. They generally bloom the first year after planting. Available in a wide choice of flower colors, they constitute a most valuable group of shrubs. No home yard should be without some of these Lilacs and they are equally valuable for park use. The following varieties are among the most hardy and very best Lilacs of this class.

ALFONSE LAVALLE. Double. Large flowers, clear lilac color. A general favorite.

CHAS. JOLY. The most choice of all double dark red lilacs. The bush is an upright grower of medium size, producing freely, large clusters of gorgeous flowers. We take pleasure in recommending this variety as being extra fine.

CHAS. X. Single. Flowers abundantly, deep reddish purple.

DOROTHY HAWKINS. Single. Deep reddish purple in large clusters. Excellent.

LUDWIG SPAETH. Single flowers. The red color a brilliant intense rich purple-red that holds up well in the sun and lasts a long time. Flower panicles are long and held erect well out from the foliage. It is a profuse bloomer commencing to bloom when only two feet high. A most wonderful lilac.

MADAME LEMOINE. Double. Profuse blooming, white flowers. The best double white.

MADAME PERIER. Double. Dwarf grower, flowers creamy white. A lovely lilac.

MARIE LEGRAYE. Single. Large panicles of white flowers. Begin to bloom when bush is only 18 to 24 inches high. The best single white variety.

PRESIDENT GREVY. The violet colored blossoms are immense in size and very double. The bush is the most vigorous of any of the French sorts.

PRINCESS ALEXANDRA. Single. Flowers very large, fine white.

MAPLE, Tatarian. (Acer Tataricum Ginnala.) 8 to 9 ft. A graceful shrub-like tree with handsome foliage which turns red in autumn. The brilliance of this coloring is unsurpassed.

The modern style in planting is to use plant materials to the fullest extent possible that they bring to your grounds the color, the beauty and the charm for which the modern place is noted.

HARDY HYBRID RUGOSA ROSES

THESE are especially valuable for growing in Minnesota on account of their hardiness. They need no winter protection. Rugosa Roses are erect growing, with spiny stems and have tough crinkled foliage of a healthy green. They bloom throughout the summer and fall. Particularly useful for planting in shrubbery or for hedges, along driveways, borders of properties and the like where the fragrant double flowers will be enjoyed by all. 3 to 4 ft. high.

PRICE, EXTRA LARGE 2-YEAR-OLD PLANTS, 75c EACH, 3 YEARS \$1.00, EXCEPT WHERE NOTED. OFFERED IN THE FOLLOWING VARIETIES:

AGNES. The coppery yellow buds become amber gold upon opening. Produced freely, the blossoms are well shaped and sweetly fragrant. The only Rugosa which is truly yellow.

AMELIA GRAVEREAUX. A strong grower with fine foliage. Flowers medium sized, dark purplish red, double and fragrant, borne in clusters.

BELLE POITEVINE. Flowers large, rather flat, rose pink, borne several together on medium length stems. Bush vigorous and healthy growing three to four feet high.

BLANC DE COUBERT. With snow white blooms, double and fragrant, and arranged in large clusters. Blanc de Coubert is at its best during the summer and fall. Might be called a white Hansa, and like that variety is excellent for a hedge. Thrives in the coldest places and is the white "Eskimo Beauty." Especially pretty in half open bud.

CONRAD FERDINAND MEYER. An early flowering variety combining the ornamental quality of its Rugosa foliage with the blossom beauty and perfume of the Hybrid Perpetuals. Flowers large, cup-shaped and double; a delicate silvery-pink.

Hybrid Rugosa Roses—Continued

F. J. GROOTENDORST. The flowers are small, fringed, bright red. Produced freely throughout the growing season in large clusters. A strong-growing plant with strong, healthy foliage of splendid quality.

HANSA. This is the rose that attracts so much attention every summer. The best double red Rugosa Rose. The plant is a strong healthy grower with fine dark, rich green foliage. The flowers are of large size and are most attractive with their rich, deep red coloring, perfectly double and fragrant. See picture on next page.

(For Hansa Rose hedging see page 14)

SIR THOMAS LIPTON. The snowy white flowers are double and produced freely through the summer and fall by this very strong plant.

MRS. ANTHONY WATERER. A new, large flowering double red Hybrid Rugosa. Blooms exceedingly fine almost continuously through the season. We offer 2 year old plants only.

ROSE RUGOSA, Single Red. One of the most ornamental single flowered roses. The flowers are large with golden center, color varying from a deep pink to bright red followed by attractive red fruit in the fall.

Hardy Bush Roses

IN addition to the Hardy Hybrid Rugosa Roses the following are dependable and hardy without covering. They are quite varied in their form and have a wide appeal to those interested in roses. They are useful for planting with shrubbery and for naturalizing on banks. The flowers are delightful and the bright red fruit is very attractive during the fall and early winter.

BLANDA. 3 to 4 ft. The canes are almost thornless and grow from three to five feet high. The soft, pink flowers measure two inches across and are borne in clusters. The bright red seed hips are attractive in winter. Desirable for covering banks and will grow in sandy or poor soil. Hardy everywhere.

HEDGES

Beautiful Borders
of Living Green

BUCKTHORN HEDGE

A strong, thrifty grower, it presents a fine appearance and gives real protection to the grounds.

THE cheapest wall or fence and the best is the living hedge. It does not need to be painted as it gives itself a new coat every year. A hedge will effectively screen out undesirable views or shut out trespassers. Plant a hedge where you need a fence. Listed below you will find hedge plants suited for all purposes and locations. Our plants are grown in the open nursery rows where they have been given ample room for both root and top development.

PLANTING THE HEDGE

We recommend planting Buckthorn, Cotoneaster and Caragana in two rows, each row 8 inches apart and the plants placed 12 inches apart in each row, staggered.

For a narrow hedge, the plants may be planted eight inches apart in a single row.

The remainder of the plants listed on this page should be planted one foot apart in a single row.

Do not fail to trim every plant immediately after planting to at least one-half its original size. Leaving only the lower one-fourth would be still better. The secret of securing a dense hedge is to cause the plants to branch out near the ground by trimming as advised above.

POSTAGE

If shipment is wanted by parcel post please add for postage and packing. Figure average weight for 100 hedge plants as follows: 12 to 18 in. sizes, 22 lbs.; 18 to 24 in., 30 lbs.; 2 to 3 ft., 50 lbs.; 3 to 4 ft., 70 lbs.

See parcel post rates on page 32.

PLEASE NOTE—25 or more plants are sold at the 100 rate.

BARBERRY, Japanese or Thunberg's. (*Berberis Thunbergi*.) Of low spreading growth, forming a dense hedge. The twiggy branches are set with small sharp thorns and bright, clean foliage which in the fall turns to gold and scarlet. The brilliant, red berries are attractive in the fall and winter. A fine plant for a low hedge whether trimmed or allowed to grow naturally.

BUCKTHORN. (*Rhamnus Catharticus*.) A very satisfactory plant to use when a medium high to tall hedge is wanted. It stands trimming so well that it can be kept for a long period at practically any height desired. The foliage is of a rich, healthy green and remains clean-looking throughout the summer. It is hardy and one of our most satisfactory hedge plants. The Buckthorn we offer have been transplanted and twice cut back, making the plants well branched right from the bottom. Many nurseries offer plants which are seedlings and do not have the root system or the low, well branched tops.

LILAC, Common Purple or White. (*Syringa Vulgaris*.) Though this plant yields readily to trimming, it is best suited for use as a hedge where it may be left untrimmed. The lovely flowers, one of its chief attractions, would not be produced if trimming was done. Should be planted only where the plants will have room to grow quite large. Please specify color wanted.

HANSA ROSE. (*Hybrid Rugosa*.) This plant makes a fine untrimmed hedge. The healthy, attractive, heavy, crinkled foliage withstands drouth and extremely hot weather without injury. The large double red flowers are fragrant, very ornamental and are produced in great abundance during June and early July. Scattered flowers are also produced during the balance of the summer and fall. Plants should be cut back to within a foot of the ground early each spring to produce strong flowering shoots.

EVER-GREENS

PRICES INCLUDE BALLING AND BURLAPPING OF ALL EVERGREENS

THIS means that the tree is dug from the soil with the earth remaining undisturbed about the roots of the tree. The ball of earth is securely fastened with burlap. This method practically insures safe transplanting.

In some varieties we have larger sizes than listed, upon which we will be glad to quote prices.

Rose Hill Evergreens Are Famous for Their Beauty

ARBORVITAE, American. (Thuja Occidentalis.) A native evergreen. Usually grows bushy at the bottom, tapering toward the top. Color a rich dark green. Very decorative singly or in groups. Will grow in partial shade. During very dry years this variety is often severely injured by drought. Not dependable.

How to Plant Evergreens

(1) Dig hole a foot larger and deeper than ball of earth. Provide good, loamy top soil to fill around ball.

ROSE HILL NURSERY

JUNIPER, Canadian or Prostrate. (Juniperus Communis Depressa.) Vigorous-growing, spreading bushy evergreen, rarely over three feet high. The sharp-pointed leaves are gray-green above, silvery white beneath. Some trees are very low in form, others more upright.

JUNIPER, Silver Cedar. (Juniperus Scopulorum.) This attractive evergreen is a bright silver blue in color which is most pronounced during hot, dry weather. It is a fine substitute for the Pyramidal Arborvitae where that tree does not thrive, being narrow, symmetrical and compact. Having but one central stem it is not subject to breakage from heavy snows. The grafted type we offer insures an even silvery blue color and uniform growth. This evergreen does not turn brown during the winter and is truly beautiful the year around. During the recent extremely dry years when all varieties of Arborvitae as well as most other evergreens have suffered serious losses, the Silver Cedar has stood both the dry and cold weather without injury. There is no better tree to plant as a substitute for Pyramidal Arborvitae, for it is hardy, does not discolor in winter, is compact in growth and dependable. See picture bottom of page.

EVERGREEN PLANTING

A FRONT ENTRANCE PLANTING

At the front entrance the tall Silver Cedars or the Red Cedars are most appropriate. The low Mugho Pines next to the steps contrast nicely in color and form, as do also the Juniper Savin which complete the groups.

A FRONT SIDEWALK PLANTING

A Mugho Pine at each side at top of steps with two Savin Junipers below gives a very pleasing effect. On narrow lots the Mugho Pines may be used alone.

SUGGESTIONS

FOR CORNER OF HOUSE

Here either the Silver Cedar or the Red Cedar provides the needed height. With a Montana Pine at each side, and either a Pfitzer or a Savin Juniper between these two, the effect is harmonious.

A REFINED MONUMENT PLANTING

A Silver Cedar at each end of the monument with a Juniper Savin in front and in back presents a dignified and refined appearance.

Low Mugho Pines may be used instead of the Savin Junipers, if preferred.

COLORFUL HARDY PERENNIALS

Beautiful GLADIOLUS Grand for Cutting

FOR beautiful flowers available from July until late fall, there are none more dependable or magnificent than the Gladioli. Planted in clumps they are attractive in the garden and as a cut flower they have no peer. By planting at intervals, about one week apart, starting the first part of May and continuing to the middle of June, a succession of bloom may be had from July until late fall. Plant the bulbs in cultivated, well-drained soil about 5 inches deep. They do best in full sun. When cutting 3 or 4 leaves should be left to the plant which will allow the bulb to properly mature. After the first killing frost, take the bulbs up carefully and cut off the stalk about 1 inch from the bulb and allow it to dry about one week. Then pack in shallow boxes and place for the winter in a cool dry cellar where the temperature will not go below freezing. The following varieties are among the most lovely and dependable:

POSTAGE—If wanted by parcel post please add for postage and packing figuring at the average weight of 2 lbs. to a dozen gladioli. Please see postage rates on page 32.

PEONIES

Rival of the Rose

Care should be taken in planting the Peony, to set the roots with the eyes about 2 inches below the surface of the soil. Planting too deep will prevent blooming though the plant may otherwise seem healthy. Peonies do best in fairly heavy soil. If, therefore, your ground be very light and sandy it is advisable to incorporate considerable clay with it. Peonies are gross feeders. Thoroughly decomposed cow manure or commercial fertilizer should be used but care must be taken not to have the fertilizer come into direct contact with the roots.

We offer strong 3 to 5 eye roots at prices quoted. Also 6 to 8 eye, blooming size roots at double the price quoted after each variety.

HARDY PHLOX

GLORY OF THE GARDEN IN MIDSUMMER

These beautiful hardy plants are the most colorful and attractive of all during late summer and early fall. Blooming most profusely, their brilliant colors admired by all, they make a wonderful display in the flower border. The following varieties have been selected for their strong growth, clear colors and profusion of bloom.

The Phlox we offer are all strong field-grown, two-year-old plants, sure to bloom the first summer.

AFRICA. A dazzling new deep scarlet variety. Well shaped, large flowers produced on strong stems. One of the best deep red varieties which apparently does not mildew. A gem for the flower border. 35c each. Dozen \$3.85.

B'COMTE. Large panicles of rich, satiny purple flowers. Exceedingly brilliant, Tall growing. Blooms mid-season to late. 25c each. Dozen \$2.70.

BEACON. Brilliant cherry-red of arresting beauty, grows 3 feet high. One of the best in this color. 35c each. Dozen \$3.85.

BRIDESMAID. A lovely white with crimson eye. A tall-growing variety. Blooms mid-season. 25c each. Dozen \$2.70.

COLUMBIA. A new strong growing patented plant. The flowers a soft pink with an eye of light blue, last well in water when cut. 40c each.

COMMANDER. The color is a brilliant deep crimson-red with slightly darker eye. Grows about 24 to 30 inches high and produces a great many spikes creating a wonderful display of color. This variety is comparatively new but already a great favorite. 35c each. Dozen \$3.85.

DAILY SKETCH. A very fine, distinctive, new phlox, salmon pink with a vivid crimson eye. The flowers are unusually large and the plant vigorous and tall growing. A charming English novelty. We consider this the finest new variety we have tested. 50c each. Six for \$2.70.

DIVARICATA. Large fragrant lavender flowers produced in May on stems 10 to 12 inches high. 25c each. Dozen \$2.70.

ENCHANTRESS. Bright salmon pink with dark eye, resembling Elizabeth Campbell in color but far superior as it is a stronger grower with rich, glossy foliage. See cut. 25c each. Dozen \$2.70.

FIREBRAND. A new bright orange-scarlet, almost vermilion. A very profuse bloomer throughout the entire season. Medium height. 35c each. Dozen \$3.85.

FRAULEIN VON LASSBURG. A splendid pure white, tall, mid-season variety. Very free-flowering. 25c each. Dozen \$2.70.

MISS LINGARD. A very lovely early white, coming into bloom a month ahead of most phlox, large, loose clusters of flowers on strong stems with shiny green foliage. 25c each. Dozen \$2.70. The best early white.

MRS. CHARLES DOOR. A lovely rose-lavender. Tall growing. The finest of all lavender-phlox. 35c each. Dozen \$3.85.

MRS. JENKINS. A very fine, free flowering mid-season white, of medium height. 25c each. Dozen \$2.70.

PROFESSOR SCHLEMAN. A large flowered, lovely pink variety of compelling beauty. Blooms early mid-season. 25c each. Dozen \$2.70.

R. P. STRUTHERS. A blending of rosy carmine with claret red eye. Tall growing, vigorous and slightly fragrant. A fine mid-season variety. 25c each. Dozen \$2.70.

RYNSTROM. A good, strong grower producing an abundance of stems, each one topped with heavy trusses of flowers of a lively rose-pink. 35c each. Dozen \$3.85.

SIR EDWIN LANDSEER. Very bright crimson. Large trusses and vigorous, healthy growth. 25c each. Dozen \$2.70.

DWARF PHLOX

AMOENA.* Fine for carpeting the ground in the rockery or as a border. Forms a sheet 4 inches high of bright pink flowers in the spring. 25c each. Dozen \$2.70.

SUBULATA.* Moss Pink. Masses of pink bloom in early spring. Pretty moss-like evergreen foliage. A fine plant for edging the border and for use in the rockery. Plant in full sun. 25c each. Dozen \$2.70.

SUBULATA. Vivid.* Bright pink with dark pink eye. We consider this the choicest of the dwarf varieties of Phlox. 25c each. Dozen \$2.70.

PHYSALIS. Chinese Lantern Plant. Valued for the bright orange-scarlet lantern-like fruits which when cut and dried may be used for floral decorations during the winter. 2 feet high. 25c each. Dozen \$2.70.

PHYSOSTEGIA VIRGINICA. False Dragonhead. Long spikes of delicate pink flowers in July and August. Plant grows about three feet. 25c each. Dozen \$2.70.

CLIMBING VINES

VINES create a graceful softening effect. The flowering beauty of many varieties has splended merit and as shade givers they are very fine. Used to embellish an otherwise drab wall or ugly bank, they are indispensable.

POSTAGE—If shipment is wanted by parcel post please add for postage and packing figuring at the average weight of 1½ pounds to each vine. See parcel post rates on page 32.

BITTERSWEET. (Celastrus Scandens.) A hardy, strong-growing vine with glossy leaves. The yellow flowers are followed by conspicuous reddish-orange fruits.

2 year.....\$0.50 3 year.....\$0.75

CLEMATIS, Duchess of Edinburg. The lovely, large, double white variety blooming over a long period.

2 year.....\$1.00 3 year.....\$1.25

CLEMATIS JACKMANI. The gorgeous display of bloom presented by this plant is unequalled among climbing vines. The striking purple flowers often measure six inches across. Being of refined habit it may be grown against the house and in other situations where a coarse-growing vine is not wanted. This Clematis is the most popular vine of all. See cut.

2 year.....\$1.00 3 year.....\$1.25

CLEMATIS, MADAME EDWARD ANDRE. Flowers are about the same size as the Jackmani, crimson red in color. Has a long season of bloom.

2 year.....\$1.00 3 year.....\$1.25

CLEMATIS PANICULATA. The flowers are white, small and star-shaped, very fragrant and so abundant as to almost hide the foliage. It blooms late in the summer when most other vines are through blooming.

2 year.....\$0.75 3 year.....\$1.00

Clematis, Jackmani
Striking purple flowers

DUTCHMAN'S PIPE. (Aristolochia Sipho.) A vigorous, rapid-growing climber with pipe-shaped flowers. The light green leaves are of very large size, and overlapping they cast a dense shade. **\$1.00 each.**

Engelman's Ivy
Clings to stucco or brick

CLEMATIS CULTURE

Plant in well drained rich soil. The hole should be deep enough to accommodate the roots without spreading too much. If the roots are very long and numerous they may be cut back to 6 or 8 inches and some of the weaker roots thinned out. The roots should be separated enough so that soil comes firmly into contact with all the roots. Water thoroughly once a week only, if rain has not already done the watering. As it is essential to keep Clematis roots cool and moist a mulch of peat moss may be used to advantage.

GRAPE, Beta. This grape makes one of the best vines for covering porches and arbors. It is perfectly hardy without winter protection and produces an abundance of fruit of medium size.

2 year extra large.....\$0.50 3 year extra large.....\$0.75

HONEYSUCKLE, Scarlet Trumpet. (Lonicera Sempervirens.) An old favorite; bearing scarlet, trumpet-shaped blossoms over a long period.

2 year.....\$0.50 3 year.....\$0.75

IVY, Boston. (Ampelopsis Vetchi.) A very lovely vine, refined in habit. Clings firmly to such surfaces as presented by brick, coarse plaster, etc. The foliage is fresh deep green in summer, changing to the brightest shades of crimson and yellow in the fall. Vines will often winter kill somewhat during the winter, but the plant comes on very nicely with new growth each spring.

2 year.....\$0.60 3 year.....\$0.85

IVY, Engelman's. (Ampelopsis Engelmani.) The hardiest climbing Ivy for this climate. Splendid to cover brick or stone walls or any other rough surface, as it requires no trellis to grow on. It is a rapid grower. The young growth has a purplish tinge, maturing dull green and turning a bright crimson color in the fall. See cut.

2 year.....\$0.50 3 year.....\$0.75

IVY, AMERICAN or VIRGINIA CREEPER. (Ampelopsis Quinquefolia.) A popular native vine with deeply cut leaves which turn to a beautiful crimson in the fall. Fine for covering rocky slopes, arbors, fences, etc.

2 year.....\$0.50 3 year.....\$0.75

MATRIMONY VINE. (Lycium Chinense.) Planted at the top of walls or embankments, this vine hangs gracefully down, covering beautifully the unsightliness of the ugly surface. The small, star-shaped, purple flowers are succeeded by bright, scarlet, coral-like berries nearly an inch long.

2 year.....\$0.50 3 year.....\$0.75

ROSES

Rose Hill Roses Are Famous For Quality

OUR roses are extra fine large plants that bloomed freely last summer, most varieties being 2 to 3 feet high and with ordinary care will produce an abundance of flowers this coming summer. No better roses can be purchased. Our plants have not been packed in boxes and exposed on bargain counters for days, but are fresh from our nursery.

These fresh roses at 75c each are fully as good quality and size as roses sold in packs at stores for \$1.00 each.

POSTAGE—If shipment is wanted by parcel post please add for postage and packing figuring average weight of each rose at 2 pounds. See parcel post rates on page 32.

Everblooming Hybrid Tea Roses

These are the so-called everblooming roses. If the bushes are kept healthy and in good growing condition, though they do not bloom all the time, one crop of flowers follows another at short intervals from June to late October. Winter protection is necessary. The flowers are very beautiful in color, form and fragrance.

DAME EDITH HELEN. A sweetly scented, clear pink rose of fine form. This vigorous plant produces bloom freely on long strong stems.

ETOILE DE HOLLANDE. The half-opened flower is perfect in form and develops into a large, artistically loose bloom of brilliant crimson. It has wonderful fragrance. The plant is strong, with large, healthy foliage, and will thrive in almost all soils and situations.

GRUSS AN TEPLITZ. The double blooms of medium size are brilliant crimson with darker shadings. Splendid fragrance. Blooms most freely in open clusters through the whole season. A universal favorite.

HADLEY. A rich crimson-red flower with velvety texture, good form and lovely perfume. See cut.

KAISERIN AUGUSTE VICTORIA. Well formed, creamy buds develop into flowers of perfect form, snow-white with slight tint of yellow at the center. Fragrant. Extremely lovely.

KILLARNEY. Has long pointed buds opening to a flat flower with enormous petals. Bright pink in color. A very free-flowering, vigorous grower. See cut.

MRS. E. P. THOM. Rated as one of the best yellows. A very free, continuous bloomer; growth strong and bushy.

PINK RADIANCE. The most reliable pink Hybrid Tea Rose. Brilliant rose pink buds, opening to well-shaped, very fragrant flowers, which have splendid keeping quality when cut. See cut.

RED RADIANCE. The flowers are large, deep red; produced freely until frost. Foliage excellent. A very popular rose.

ROSE MARIE. Fragrant, clear, rose-pink flowers of large size, borne freely on plants of notable vigor and health.

SUNBURST. Beautiful yellow flowers strongly suffused with orange at the center. Flowers are well shaped and fragrant. See cut.

TALISMAN. Rich yellow and rose-red. Vigorous, upright grower, bearing many blossoms; splendid for cut flowers.

MINNEAPOLIS AND SAINT PAUL

HYBRID PERPETUAL ROSES

THESE roses produce a splendid display of bloom. The flowers are large, full and very fragrant. Hybrid Perpetual Roses are more hardy than the Hybrid Tea class. They are not, however, as profuse bloomers. Winter covering is necessary.

Strong 2-year plants.....\$0.75 each Extra strong plants.....\$1.00 each

- CAPTAIN HAYWARD.** The scarlet crimson flowers are of splendid form. Very large and fragrant. Blooms over quite a long period on a big, strong plant.
- FRAU KARL DRUSCHKI.** Considered the best white rose of any class. The splendid snow-white flowers have beautiful form but are without fragrance. Blooms are borne freely on a very strong-growing plant. See cut.
- J. B. CLARK.** The color is unique among roses, a deep scarlet shaded to blackish crimson. The flowers are very double, slightly fragrant. Requires severe pruning.
- MARSHALL P. WILDER.** Flowers are large, a bright carmine, very fragrant. A strong grower with a long blooming period.
- MRS. JOHN LAING.** Soft pink, of beautiful form; exceedingly fragrant and remarkably free-growing. A vigorous grower with handsome foliage. See cut.
- PAUL NEYRON.** Blooms are lilac-rose of a very large size. Fragrant and double. The plant is a strong grower and a very profuse bloomer.

CLIMBING ROSES

These require training to a trellis or upright support of some sort. Anyone willing to give them the required attention will be more than repaid by the graceful beauty of these plants. Require winter covering.

Strong 2-year plants.....\$0.75 each 3-year.....\$1.00 each

- CRIMSON RAMBLER.** The flowers are produced in great trusses, often thirty or forty in a cluster, appearing like large bouquets. The roses are small, semi-double, and of a bright crimson color.
- DOROTHY PERKINS.** The rather large, double, clear shell-pink flowers are borne in pendulous sprays. The fragrant flowers do not fade in color.
- DR. W. VAN FLEET.** The perfectly formed buds are borne on long, stout stems. In color they are flesh pink, deeper at the center. Splendid for cutting, very fragrant. Dark glossy foliage.
- EXCELSA.** The deep scarlet crimson blooms are produced in profusion in large clusters. A vigorous grower. Has largely replaced the Crimson Rambler.
- PAUL'S SCARLET CLIMBER.** The well-shaped scarlet flowers are of moderate size and borne in small trusses. They are borne early and last a long time. The plant is of moderate size with good foliage. See cut.
- PRIMROSE.** Hardy climber, abundance of double canary-yellow blooms.
- STAEHELIN. (The Spanish Beauty.)** A splendid new climbing Rose, which has the added advantage of being excellent for cutting, as the flowers are borne on 12 to 15 inch stems. Crimson buds opening into large, semi-double pink flowers. The plant is extremely vigorous, making a growth of 10 feet or more each year. One of the most useful and effective.
- TAUSENDSCHOEN or THOUSAND BEAUTY.** Prettily ruffled large flowers of shades of creamy white and changing to bright rose-pink. A healthy grower.
- WHITE DOROTHY PERKINS.** The flowers are rather small, very double of pure creamy white. Blooms in profusion on strong healthy plants.

Paul's Scarlet Climber
Intense scarlet

BABY RAMBLER OR POLYANTHA ROSES

These rather small, bushy plants are the most truly ever-blooming of all roses. The bloom is borne in heavy clusters throughout the summer until frost. The size of the bush makes it especially adaptable to home yard plantings. Require careful covering for winter.

2-year-old plants.....\$0.75 each

- CATHERINE ZIEMET.** Double, pure white flowers in abundance, borne in large fragrant clusters.
- MISS EDITH CAVELL.** The semi-double flowers are a brilliant scarlet red, rather small in size, produced in large clusters.
- ELLEN POULSEN.** Rather large, full flowers of bright rose-pink in large compact clusters. Fragrant; profuse blooming.

HOW TO PLANT ROSES

- 1st. Dig a hole so large the roots won't be cramped.
- 2nd. Place plant depth shown. Fill hole nearly to top with rich soil. Water thoroughly to firmly settle soil.
- 3rd. Trim plant to about 7 or 8 inches in height as picture shows.
- 4th. Cover entire top of the plant with a mound of loose soil about 9 inches high.
- 5th. In about two weeks pull a little of the loose soil away to observe if buds are bursting open. If buds are opening, carefully pull away the mound of loose soil. If buds are still dormant leave the mound of soil until buds are observed to burst open, then remove mound.

WINTER COVERING—Cover for winter this same way and over the mound place about a foot of marsh hay, then a layer of building paper.

DELICIOUS FRUITS

THE thrifty housewife has long known the savings made when fruits are grown at home. There is something about home-grown fruit that is different. It tastes better than any other. For their ornamental qualities alone, fruit trees are worth while. The next best thing to eating berries right off the vine is to have them served to you directly after picking.

POSTAGE—We recommend shipping fruit trees by freight or express. The 3 to 4 foot size and the 4 to 5 foot size may be shipped by parcel post, however. Figure weight at 3 pounds each for the 3 to 4 foot and 4 pounds each for the 4 to 5 foot. Please refer to parcel post rate table on page 32 to figure amount of postage to include with order.

Small fruits such as grapes, strawberries, currants, etc., can be shipped parcel post if desired. Please note weights given under each item.

FLAME. (Minnesota No. 635.) This is primarily an ornamental crab but the fruits, though small, make an excellent red jelly. The flowers are similar to other crabs but are borne in great profusion. The tree is compact in growth and of medium size, suitable for lawn planting. The fruits are a brilliant red and hang tenaciously to the trees until mid-winter, months after the leaves have fallen. The effect is a mass of flaming red color from August until November. Trees 5 to 6 feet high often have 250

or more brilliant red colored crabs. The fruit during December and January is attractive to winter birds. As an ornamental tree in the fall it rivals all other trees with its attractive bright red fruit. Among the ornamental trees in our nursery last fall this ornamental crab attracted by far the most attention.

CHERRIES

EARLY RICHMOND. Red, acid, excellent for cooking or drying. 4 to 5 ft.....\$1.25 each 5 to 6 ft.....\$1.50 each

OKA CHERRY. Immensely productive, bearing next year after setting into orchard. Heavy, annual bearer of large, deliciously flavored fruit, having rich purple-red skin, flesh and juice unexcelled for canning, jam or jelly. Tree is very hardy; is of dwarf habit, making it easy to gather the fruit. Be-

cause of its early bearing and excellent fruit it is certainly a favorite, and we recommend it very highly.

PIEBING. A new plum introduced by Mr. Chas. Haralson, Excelsior, Minn. It is hardy and of vigorous growth, producing a regular crop of unusually large, fine quality plums. Should be included in every home and commercial orchard. See picture.

LA CRESCENT. The Apricot flavored plum. Tree vigorous and productive. Fruit medium sized. Clear yellow, tender, fine grained flesh. Semi-free stone, juicy and sweet.

MONITOR. Tree vigorous and productive. Fruit large, almost round, color dark red, quality good.

SUPERIOR. A new, deep red plum of high quality. Fruit is large, with small pit and ripens early. We recommend this new variety.

TONKA. A fine-flavored, juicy plum of large size, good keeper and good market variety. Red.

UNDERWOOD. Fruit attractive red with fairly firm, juicy flesh, small pit, clingstone, hangs well and ripens over a long period. A splendid variety.

Parker Pear (Minnesota No. 1)

PEARS

NO one need hesitate to plant Pear trees in Minnesota. All who saw the Minnesota State Pear Exhibit at the Minnesota State Fair were convinced that Pears of good size and fine flavor can be grown in abundance in Minnesota. The following varieties are dependable.

MENDEL PEAR. Originated at New Ulm, Minnesota. Fruit is of good size, about the same as Bartlett, juicy and of fine quality.

5 to 6 ft.....\$1.25 ea.

PARKER. (Minnesota No. 1.) Originated by the Minnesota State Fruit Breeding Farm. This is a good cooking and eating pear. The tree is a large, vigorous, free-growing type. Fruit medium in size, flesh tender. See picture.

5 to 6 ft.....\$1.25 ea.

GRAPES

THE Alpha and Beta varieties are hardy without winter protection. All other varieties should be covered for the winter. Parcel post weight: 3/4 pound each.

2 years.....\$0.40 each, \$3.50 per dozen

AGAWAM. Dark red, bunch and berries very large.

ALPHA. Fruit is larger than Beta and of good quality. Perfectly hardy without covering.

BETA. The Beta is perfectly hardy, a rapid-grower, early bearer, good sized fruit, bunches often weigh-

3 years.....\$0.50 each, \$4.00 per dozen

ing one-half to one pound each, and of fair quality. Well adapted for covering porches, fences, etc., or will do well planted out by itself. A fine grape for jelly or grape juice. See picture.

If shipment is desired by parcel post please include an amount to cover postage and packing. Please note average weights indicated at the headings of the various kinds of stock and compute the amount from the parcel post rates given on page 32.

SELECT YOUR OWN PLANTS

Our customers are welcome to select plants without extra charge in our 100 acre nursery. There is satisfaction in selecting your own plants where there are thousands of shrubs, trees and evergreens to choose from. If you cannot do so, however, we will make careful selection for you.

Direct from the grower you are assured fresh, healthy plants that have not been weakened by exposure in stores or sales grounds.

BENEFITS OF ORDERING EARLY

If customers will kindly place their orders as early as possible the best selection of stock and prompt delivery of the goods when planting time arrives will be assured them.

FREE PLANTING BOOKLET

A booklet giving instructions for the planting and care of nursery stock accompanies each order.

THE PLANTING SEASONS

Planting may be done in the spring, generally about April 1st to June 1st, or in the fall from September until the ground freezes solid.

PLANTING CHARGES

A planting charge of 45% of the cost of trees, shrubs and perennials, 50% of the cost of hedge plants and 30% of the cost of evergreens supplied, is made when we do the planting in the Twin Cities and suburbs. The minimum planting charge is \$2.00. Black soil, if required, is charged for on a yardage basis, \$2.50 being charged for a single yard or \$2.00 per yard when two yards or more are purchased, or the customer may furnish the soil. Carting away of poor soil or debris is also charged for.

ROSE HILL GUARANTEE

Everyone knows that the transplanting of trees and shrubbery is attended with some risk. We use every precaution in the growing and handling of our products to lessen this risk. There are, however, conditions arising after the plants have left our hands over which we have no control, such as care in planting, weather conditions, etc. Nevertheless the ROSE HILL NURSERY agrees to replace at one-half the original price, any nursery stock purchased direct from them at the prices listed in this catalog, that dies before October 1st after planting. Dead stock must be reported before October 1st after planting. Prompt payment of accounts must be made in full or the above guarantee is void.

NURSERY VALUES

THE LOGICAL PLACE TO BUY trees, shrubs, evergreens and flowers is direct from the nursery where they are grown.

The nursery trade grows plants, living things, and then sells them to those who will buy. These living things are valueless to the purchaser unless they continue to live after he has bought them. There are certain definite conditions required while these plants are being transferred from the nurseryman until they are properly planted on the purchaser's grounds.

For this reason, nursery stock does not lend itself to merchandising by a middleman, to be piled on store counters and sold as ordinary merchandise.

Anyone with plant sense knows that every hour a plant is separated from mother earth, it constantly loses vitality unless precautions are taken to prevent it.

ROSE HILL NURSERY plants reach your home as fresh as the moment they were dug from the earth in which they grew. Dealing with the Rose Hill Nursery you are assured of dependable quality and efficient service backed by sixty-four years of honest business practice.
